

# Sage 200 Manufacturing

A powerful manufacturing solution

## Summary

**Sage 200 Manufacturing** enables you to manage your entire supply chain from end to end, giving you the information needed to manage and control your business more effectively, whilst enabling you to maintain maximum productivity, increase customer satisfaction and profitability.

Whether you are primarily a manufacturer or simply need some manufacturing capability, the **Sage 200 Suite** supports assembly, repackaging of bulk items, resource planning, scheduling work and materials.

## Business Benefits

**Sage 200 Manufacturing** enables you to:

- Meet delivery times
- Manage your cash flow
- Control product quality
- Reduce costs
- Optimise production
- Save time
- Stay on track at every stage of production
- Share information
- Accurately track deliveries

**Sage 200 Manufacturing** enables visibility of your data in real time across your business. Your people will have access to accurate, timely information, from those on the shop floor to the procurement and accounting departments.

With essential data flowing throughout the organisation you can achieve greater business efficiency, increase collaboration throughout your organisation and ultimately improve sales and profitability.
