

# Sage 200

The Sage 200 Suite - a complete set of modules to meet all your business needs

## Summary

**Sage 200** combines a suite of applications for both front and back-office into a single, powerful, integrated solution that has been designed to manage complex business processes and to share information with whoever needs it, when they need it.

**Sage 200** is built on a tightly integrated platform, which combines strong financial and commercial data, market leading CRM and the analytical tools of Business Intelligence, providing efficiency and consistency across your business.

## Business Benefits

**Sage 200** enables you to:

- Create processes that flow into one another across your entire company
- Enable your staff to collaborate more closely across departments
- Give your managers an instant and accurate view of your business
- Gain increased visibility of your business through powerful analytical tools, highlighting inefficiencies and opportunities for innovation, productivity and growth
- Develop user specific workspaces that let people see everything they need, speeding up processing and reducing errors

Combining front and back office functionality leads to many benefits, giving you one view of your business and increasing your ability to retain your competitive edge.

**Sage 200** gives your people the tools they need to do their jobs more efficiently, enabling them to increase productivity, saving them time, and making your whole business run more smoothly.

Thousands of UK companies have already chosen the reliability and performance of the **Sage 200 Suite** and are realising the business productivity benefits in their day to day business.
